

HEATER CRAFT 100-H SERIES HEATER

Works like a car heater. The Acu-Heat 100-H series channels up to 150 degree heated air through a compact in-dash or floor mounted vent. It utilizes engine water like a car heater. Everything needed to make installation a breeze is here.

- *Unique modular CAD/CAM design
- *Rust free aluminum housing
- *Corrosion protection
- *High velocity 4" fan
- *Universal bracket mounting system

EXTREME HEATERS

Xtreme Heaters, Extreme Engine Room Marine Boat Heater have been tested for the ignition protection requirements of the ABYC E11, the USCG,ISO 8846 and SAE J1171. Forced air heaters for more accurate climate control. Auto thermostat turns heater on at 40F and off at 55F +/-3 degrees. Safe through temperature limiting characteristics. Dynamic, self regulating, and therefore energy efficient and economical to use High power to size ratio. Pre-wired for 115V power source. Long lifetime /reliable, built to last! Built to meet or exceed ABYC ignition protection standards with UL, SA, CE and VDE recognized components. anodized inside and out. Recommended operating temperature is from -10C to 80C (or 15F to 180F) 20 foot power cord with a 3 prong plug easily reaches from heater mounting point to circuit protected outlet inside cabin.

CAMCO QUICK-TURN PERMANENT BY-PASS KIT

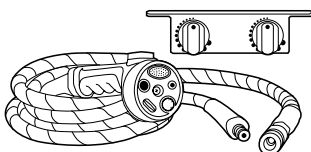

Save on antifreeze when you winterize with this easily-installed water heater by-pass kit. Sturdy, brass backflow preventer and 100% shut-off valve lets you by-pass the water heater with a single turn.

CMO35983 QUICK TURN BY PASS KIT\$ 28.45

HEATER CRAFT 100-S SHOWER SYSTEM

The 100-S system is a complete package designed primarily for smaller boats. However, the bigger boat owner may prefer the discreet installation of this concise system. Because of the positive shut-off provided by the quick release fitting, the valves can be preset at your desired temperature level. This allows you to mount the valve out of the way and out of sight. The 1.4 gpm 12V DC ignition-protected demand pump provides plenty of pressure for this system. A 9' spray hose comes standard, and longer hoses are available. The five position spray head will satisfy all applications. This system is designed to hook up to your engine, and all of the necessary hoses and fittings are included. * S-102 valve assembly 6.5" W X 2.25" H X 3.45" D

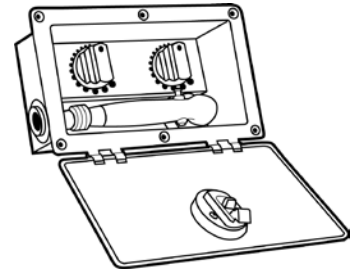

HTC101SC SHOWER SYSTEM\$ 285.00

HEATER CRAFT 300-S SHOWER SYSTEM

The 300-S series is constructed with a special high-tech plastic material. This material is not only tough, but also provides outstanding protection against degradation from the sun's UV rays. The flush-mount design allows for inconspicuous integration into the transom, gunwale, or head. A 10' spray hose and a high caliber shower head with a water conservation button complete this superior unit. Longer spray hoses are available. A 2.3 gpm, 12V DC ignition-protected demand pump and all the necessary hoses and fittings are optional to make this a complete kit designed for engine hookup.

- * 10.3" W X 5.75" H X 4.65" D
- * Two (2) year warranty

CAFRAMO BLOWER AIR DRYER

* Internal blower circulates air for enhanced ventilation. Continuous trouble free operation. Anodized aluminum. Low current draw, inexpensive to operate. Safe and effective. Designed for RV, marine, and home use (anywhere dampness is a problem)

CFR9406CA AIR DRYER.....\$ 81.95

IRONWOOD PACIFIC DRY WAVE

Designed to run safely and continuously for extended periods, DryWave air dryers include no moving parts and plug directly into a standard 120 volt outlet. The original DryWave is designed for rooms and spaces up to 1,000 cubic feet, while the DryWave 100 is designed for use in lockers and as gun safe air dryers up to 100 cubic feet. DryWaves are most effective as boat air dryers in cooler climates.

DryWave: boat air dryer gently warms the air to prevent condensation and mold buildup. Ideal for use in spaces up to 1,000 cubic feet. Also great for use as an RV air dryer. Electrical draw is only 120 watts, less than a household light bulb! No moving parts- equipped with a thermal cut-off switch to prevent overheating. UL-Listed- Designed and tested for safe, continuous operation!

DryWave 100: Ideal for smaller spaces like heads, gear lockers, engine compartments, and gun safes. Draws only 20 watts and plugs directly into a 120 volt outlet. No moving parts. Made in the USA

DAMP RID HI-CAPACITY MOISTURE ABSORBER

Featuring our Moisture-Lock™ spill resistor technology, this large-area moisture absorber can be used in moving vehicles or vessels, such as RVs or boats, to prevent mold and mildew stains and to protect from moisture damage. The base is filled with a brine-absorbing medium that locks up free liquid, preventing spills. The sealed permanent safety cover is also designed to keep children and pets out of the container. Lasting from 60 days for a 1,000-sq.-ft. area to six months for a 250-sq.-ft. space, the disposable Hi-Capacity Moisture Absorber is great for reducing allergens, eliminating odors and absorbing moisture in: Basements, Crawlspace, Garages, Boats in use, Boats in storage, RVs and campers in use, RVs and campers in storage, Second homes, Cabins, Sheds, Attics, ETC.

DPR-FG50T HI-CAPACITY MOISTURE ABSORBER \$ 15.75

DAMP RID SUPER ABSORBING SYSTEM

The Super Absorbing System creates fresher, healthier air. It eliminates musty odors caused by mold and mildew and reduces allergens which can trigger asthma problems and irritate the skin and eyes. The upper chamber features 360 degree venting to create superior airflow. The system is also designed with safety in mind. The lid locks firmly, preventing small children from opening it. It has a wide sturdy base and will not easily tip over. The lower chamber has a unique spill-proof design to prevent leakage in the event the container accidentally tips over. The Super Absorbing System is easy to use and lasts up to 60 days depending on temperature and conditions. The Super Absorbing System uses convenient, disposable refill packs. The product is environmentally safe, septic safe and will not reduce moisture to a level that could harm pets or houseplants. The Super Absorbing System is recommended for a variety of areas, including: Living Rooms, Bedrooms, Kitchens, Offices, Laundry Rooms, Entryway/Mudrooms and Bathrooms.
