**ATTWOOD LED SERIES NAVIGATION LIGHTS**

Proprietary optics design draws only 2.4 watts at 12VDC — the lowest power draw on the market today! These lights are designed to resist corrosion in even the most extreme saltwater environments. Lights are completely sealed and are water tight. LED technology keeps lights cool to the touch and is rated for 50,000+ hours of use. 2-NM lights are for use on boats up to 65.6ft in length. 1-NM lights are for use on boats up to 39.4ft in length. 24V and 32V models available upon request. Contact your Attwood Sales Representative for details.

## ATTWOOD STOWAWAY COMBINATION SIDE LIGHT

This light with combination red/green lens is a popular choice for installation on bass boats. When installed, the base extends just 3" below the deck. The base has a swivel cover that protects the socket when light is stowed away. Socket is non-corrosive plastic. Base and light head are constructed of die-cast ZAMAK with Perma-Plate finish and the lens is polycarbonate. 10" high x 4" long x 1-5/8" wide. Installation hole size is 1-3/8" diameter. Base is pre-drilled with three countersunk holes for #10 screws.

## AQUA SIGNAL L.E.D. BATTERY OPERATED NAVIGATION LIGHTS

LED Portable Lights designed for boats that are manually powered or with speeds up to 7 knots. Equipped with LED diode for extremely long battery life. Brilliant LED light maximizes visibility on the water. Available with many different mounting options. High quality shock resistant black neoprene, watertight, buoyant, shock resistant; sealed heavy duty on/off switch. Uses premium side-emitting luxeon super 1Watt LED bulb. Clear or bicolor special plastic projector, seawater resistant, easy to change. 4 AA batteries (not incl.). LED extends battery life up to 10 times vs incandescent. Rubber coated on/off switch.

## INNOVATIVE LIGHTING L.E.D. NAVIGATION LIGHTS

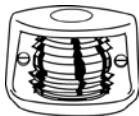

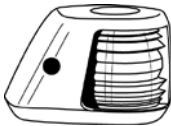

For use on vessels Under 23 Feet at Speeds Under 7 Knots. Shock-proof LEDs are rated at 100,000 hours service life. Uses 90% less energy than incandescent lights, fully buoyant. Molded one-piece white body construction with black neoprene accents. Sealed heavy duty On/Off switch. Brass-insert mounting bushings. Inflatable base models have a 2" pedestal, a safety attachment lanyard, and are held in place with a SS hitch pin; the base itself is synthetic rubber and must be attached with a glue appropriate for your particular boat material. Stern lights on poles can attach to their C clamp in two ways and also include a bracket mount for wooden transom or bulkhead mounting. Bright Krypton bulb included. Requires 4 x AA batteries (not included).

## ATTWOOD LED ALL-AROUND POLE LIGHTS

Proprietary optics design draws only 1.8 watts at 12VDC — the lowest power draw of any 2-mile All-Round light on the market today! Lights are rated for 50,000+ hours of use. Two-mile, 360° visibility for boats up to 39.4ft. 2-Pin Locking Collar Pole matches multiple angles and installations. Locking collar can be used – or removed – to allow installation in almost any base, even competitive brands.
